

TEAM5 Status Report #11

Date: 3/14

Status Paragraph: Created MongoDB database and cluster. This week we plan on starting the other part of our projects. Still not too much progress yet, as we are still figuring out Mongo.

After lab 4 is done, we will have a better foundation to start our database work.

Accomplishments	Notes	Date
Created MongoDB database		3/16/25
Set up Websocket server		3/16/25

Plans (for next meeting):

- Review responsibilities and create MongoDB connection
- Ameya
 - Make friend list work with MongoDB
- Cole
 - Websocket implementation & responsive data reading
 - Messages improvements and polishing
 - Create endpoint for message requests from other pages
- Tobias
 - Create functionality for users to create profile tags
 - Create functionality to delete profile tags
 - Adding friends
- Chris
 - Make search by event functional
 - Users and skills in MangoDB, pull from DB
 - Pull from an API with more skills/details
 - Make the message button functional and add profile pics/info to user details
- Andrew
 - User account system for signup and login
 - Account security and password hashing
