

TEAM5 Status Report #17

Date: 4/6

Status Paragraph: Profile update: profile is pretty much done - just waiting on messages and user-homepage integration for friend requests and skill exchanges.

Accomplishments	Notes	Date
Add friends functionality		4/6
Unfriend functionality		4/6
Friend list display		4/6
Skill list display		4/6
Edit profile overhaul		4/5
Share profile functionality		4/4
Messaging works with new schema and uses logged in user		4/6

Plans (for next meeting):

- Ameya
 - Limit display to 5 events max.
 - Add/Delete event functionality.
 - Create event functionality.
 - Make it so that if users has no events added, switch display to show recommendations of events.
- Cole
 - Websocket implementation with user sessions
 - Make user list refresh when a message to a new friend is sent
- Chris
 - Make the add friend button functional and add profile pics/info to user details.
 - Connect with profile page
 - New accounts / logged in profiles are findable
- Andrew
 - Make single consolidated user database
 - Add an admin user

Blockers:
